

RESUME BOMB CONFERENCE

Eleven Division Armistice Parade Moves At 7:30 P.M.

PA NEW OBSERVES

Pa New notes that some of the 1945 Christmas seals are already making their appearance on mail arriving at The News office.

The Weatherman was rather accommodating on Saturday night. Rain ceased long enough for playing of the New Castle-Warren high school game, and then resumed later in the night.

Hunters report to Pa New that game appears to be rather scarce in this area this fall.

Education week is being observed in New Castle schools during the current week. Effort is being made to have parents see what work is being done in the schools.

If the weather should suddenly turn cold, there would be skating ponds galore in Lawrence county. Many of the lowlands seem to be holding enough water to provide extra skating ponds, while the regular ponds are well filled.

While hunting small game just beyond the Harbor recently, a local hunting party reports on sighting an eight-point buck and two does. They were getting an early start, hunting small game, and state that the deer seemed quite tame. Those in the party were Ted Clark, (ad Forest), and David Clarke and son. The deer were sighted along the road leading from Stevenson's Corner and the Nashua bridge.

Pa New is told that one of the North Hill squirrels is getting so tame that it goes up on a rear porch and almost knocks at the door in its eagerness to get into the home.

Despite the end of the war and changed conditions bus riders on the city lines at rush hours appear to be about as numerous as ever.

One of the sites of a pioneer school building in New Castle—Martin Gantz—will soon be the home of a motor company. The site on North Jefferson street was vacant for some years, following razing of the old First Ward building, but a large structure is now rapidly rising on it.

Wonder why a spotlight couldn't be trained on the face of the clock in the church on the diamond? It would help a lot in making the clock of greater value at night.

Post office patrons who went to the post office Saturday afternoon to buy stamps were disappointed, all the windows being closed. Decision to close had been made recently, it was stated at the post office.

Thanksgiving dinner in the home of John Young of Portersville will be a most festive affair. This morning, hunting near Harlansburg along the Slippery Rock Creek, Mr. Young, an employee of the Manufacturers Light and Heat company in New Castle, shot two large wild geese. The wing spread on the larger of the two was five feet. To get both of them required some fast work as he was using a single barreled shot gun. After bringing one of them down he reloaded and got a second one out of a flock of about a dozen.

We wonder who it was due to the wet weather of the past few days that two cars in close succession were getting a push down Highland avenue this morning while their owners tried to get the motors to turn over. One gave up and pulled in to the curb.

Huge thermometer recording progress of the Victory Loan drive has been erected on the public square. It records about half a million today.

Leon Sasiadek, 17 year old hunter was successful in bagging four rabbits and a pheasant, two Saturdays in succession while out hunting in Wilmington township. He was accompanied by his father, Andy, and his uncle, Alex Sharek.

Memorial And Dinners Held

Veterans Honor Their Comrades Lost In Combat, And Have Festive Events

JUDGE BRAHAM GIVES ADDRESS

Saturday evening around a hundred veterans took part in the annual Armistice Day dinner at the Castleton with Mayor Guy C. Wadlinger presiding as master of ceremonies. The invocation was given by Dr. John C. Gibson, pastor of the Mt. Lebanon U. P. church, who was taken prisoner by the Japs when the war broke out and who was among those repatriated and returned to the United States six months later.

Dr. Smith later spoke of his experiences, and stated that he felt that we have a good chance to make peace in the Pacific in spite of the prevailing white race bias because of their reverses at the start of the war.

There were a number of World War Two men in attendance in addition to the old veterans of 17 and 98. Included among these were Ensign Jimmy McCann of the seventh ward, who was a prisoner of the Japs after being shot down in air combat along the coast of Japan. Capt. J. V. Twenty-Two Perish In Transport Crash

Two Red Cross Girls, Dozen Soldiers Among Killed When Transport Crashes In Italy

ROME, Nov. 12.—(INS)—Twenty-two persons, including two Red Cross girls and a dozen homebound American GIs, were killed last night when their transport plane crashed and burned during an emergency landing at Palermo airport.

There was only one survivor. The plane, bound from Athens to Naples, carried a crew of 6 and 17 passengers and attempted the emergency landing after the pilot lost his bearings in the darkness.

The pilot signaled the airport for floodlights and when there was no response he decided to make the landing anyhow. The big ship burst into flames immediately after the crash.

MANILA, Nov. 12.—(INS)—Testimony charging Japanese soldiers with cannibalism was entered for the first time today in the record of Gen. Tomoyuki Yamashita's war crimes trial.

Pictures were introduced showing mutilated victims of the cannibalism assertedly practiced on small children by the Japs.

In another new development of the case, counsel for Yamashita filed a writ of habeas corpus with the Philippine Supreme Court in a not unexpected effort to free the former Jap Philippine commander from U. S. Army jurisdiction.

'Unified' Labor Policy Lacking By Government

Such Is Charge Made By One Of Staff Of Brookings Institute

LITTLE IS DONE TO BIND AGREEMENTS

By PHILLIPS J. PECK
U. S. Staff Correspondent

WASHINGTON, Nov. 12.—New charges that the government lacks a "unified" labor policy highlighted a front developments today as delegates to the labor-management conference took a breather before renewing their drive to chart industrial peace.

The privately-endowed Brookings Institution released a study by one of its staff, Dr. Harold Metz, in which the government's "major objectives" in the labor field were described as increased earnings and reduced costs of work.

Metz charged that labor policies pressed increased bargaining power for workers, often at the expense of the right to self-organization and the peaceful settlement of industrial disputes. His report said:

"To increase the bargaining power of employees, the government has protected their right to organize, strike, picket, boycott and bargain collectively with very few limitations on these activities although interstate commerce is thereby impeded."

"Even minority groups can utilize these weapons against the interests of majority groups. The purpose of his policy of protecting the right to engage in concerted action is to encourage the making of collective agreements."

"Yet little is done to insure that these agreements are binding and enforceable."

Meanwhile, spreading industrial turmoil was reflected in a National Labor Relations Board report that 666 petitions for strike votes—an all-time high—were filed with NLRB in October.

SIX KILLED IN CRASH OF PLANE

Navy Plane Crashes Into Mountain, One Of Victims Commander Dixie Kiefer

BEACON, N. Y., Nov. 12.—(INS)—The burned wreckage of a Navy plane which crashed into a mountain, three miles outside Beacon was discovered today by searchers who had been combing the neighborhood since yesterday.

One of the six victims was identified by local police as Comdr. Dixie Kiefer, commander of the Quonset Naval Air Station. Names of the other five victims were not disclosed. Kiefer gained national fame as the heroic commander of the carrier Ticonderoga during the Pacific war.

The search for the plane centered around Beacon when residents reported a low-flying plane circling the countryside in heavy weather. Several persons said an explosion was heard after the futile circling ceased.

State and local police were joined by a Navy blimp and small craft as well as parties sent to aid from the military academy at West Point. The Navy refused to state the type of plane found, or name the lost airman, pending positive identification.

However, it earlier had reported as overdue a Beechcraft (JRB) bomber carrying at least six officers and men on a flight from Caldwell, N. J., to the Quonset base.

Air Superiority For United States Urged By Arnold

Chief Of Army Air Forces Advocates Program For Nation's Defense

ATOMIC BOMB IS VITAL NEW FACTOR

WASHINGTON, Nov. 12.—(INS)—Gen. H. H. Arnold, chief of the army air forces, advocated today that the United States maintain absolute air superiority, promote scientific development and keep a national intelligence organization in the new atomic world.

Arnold's program of defense of this country was outlined in a special end-of-the-war report to Secretary of War Patterson. The air forces chief said that the release of atomic energy has made air power "all important." He added:

"While this country must employ all of its physical and moral force in the cause of peace it must recognize that real security against atomic weapons in the visible future will rest on our ability to take immediate effective action with overwhelming force."

Walt Disney Urges Victory Bond Buying

WASHINGTON, Nov. 12.—(INS)—Walt Disney said today that in the victory bond drive we can support the faith of the children and help to make a success of the war bond campaign. His statement follows:

"Among the bitterest fruits of the defeat of Germany and Japan are the sick and hate-twisted minds of the children they forced out of the shell-pocked fronts. On the other hand outstanding in our victory are our school children, trained in a democracy to save and share for our nation's future."

From big city schools and tiny one-room schoolhouses, our youngsters sold bonds which sent thousands of jets, planes and tanks off the production lines. Ten per cent of all seventh war loan bonds were sold through schools. You can match their aims with your dollar."

By buying victory bonds we can support the faith of these children and help justify the sacrifices made by the boys who now more than ever need every bit of assistance a grateful people can give them."

Rejection Ultimatum

Rejection of an ultimatum to surrender all arms and turn over leaders of the uprising which resulted in the slaying of Brig. Gen. A. W. S. Mallabey, British commander at Soerabaya, precipitated the all-out offensive unleashed against the nationalists last Saturday morning.

The Javanese revolutionaries, hurling themselves against the grimly-advancing empire troops, suffered heavy casualties, according to an official British communiqué.

The nationalists charged British tanks, but were cut down by coordinated fire from artillery, armor and small arms.

The bayonet-wielding Indians then pushed onward, supported by tanks and low-flying Royal Air Force planes which again swooped at the attack. One by one they eliminated the strongpoints from the last one-third of the port to be cleared.

Await Truman's A-Bomb Control Reply To Attlee

Britain Proposes All Secret Weapons Be Pooled Under United Nations Control

CONFERENCE GOES INTO THIRD DAY
BULLETIN
LONDON, Nov. 12.—(INS)—Official British circles emphasized today that Prime Minister Clement Attlee went to Washington with no specific atom bomb control plan and that his talks are purely exploratory.

Unofficially, these same circles warned against current Washington dispatches telling of Reported British proposals.

WASHINGTON, Nov. 12.—(INS)—President Truman and Prime Minister Clement Attlee resumed their discussions on future control of the atomic bomb today with no official information yet shedding light on details of their highly important conference.

By ROBERT G. NIXON
U. S. Staff Correspondent

WASHINGTON, Nov. 12.—The world awaited word today of President Truman's formula for control of the atomic bomb following disclosure of Britain's proposal that all secret weapons be pooled under control of the United Nations.

Prime Minister Clement Attlee reportedly placed his revolutionary proposal before the American chief executive and Premier W. L. Mackenzie King of Canada in a news conference about the atomic bomb control plan.

White House and state department officials were tight-lipped on the Attlee plan which, according to reports, would require the pooling of all secret weapons under control of the United Nations.

The drive is to raise the money for the operation of various relief agencies, such as the YMCA and YWCA, the Red Cross and Boy Scouts, and the various relief agencies, as well as to provide funds for emergency relief in stricken parts of the world, and for the care and maintenance of American soldiers and sailors in the armed forces.

As the last formal report meeting, a luncheon for chairman of the various agencies will be held at The Castleton hotel at noon Wednesday, Mr. Langan announced.

Arthur Mometer

Just twenty-seven years ago, it doesn't seem that long, the Yanks were nearly killed. And I recall a little camp out in the Georgia pine woods, where three thousand men and everything seemed fine. The new were there from many states, Wisconsin, Illinois and Minnesota, among others. Just before the night, those kids who bring arms back home no doubt from where they came the midwestern spirit, turns I'd like to meet that gang again, and hear them sing and yell to bid adieu those twenty-seven years (the weather's sixty-four).

Fighting Continues

Despite an early announcement at British headquarters that operations were "proceeding against little opposition except sniping," the fighting continued for final and full possession of the city.

The London Daily Mail, in a Batavia dispatch, said the roar of artillery batteries in the city was "continuous."

In their advance, the Indians liberated some 3,500 internees of the jail where they were held by the Indonesians. Many of the prisoners were Eurasians—men, women and children—but there also were numerous Dutch citizens.

Meantime, Sockarno—Jap-installed "president" of the so-called Indonesian republic—blasted British action at Soerabaya. He charged that "thousands and thousands" of Japanese civilians were slain in a "vast massacre."

as 100,000 Communists, supported by artillery concentrations, were reported assaulting the city.

An emissary from the beleaguered North China capital slipped through to contact national government quarters. He reported that Communist artillery was shelling the city where, he added, some "ten thousand refugees are housed."

Meanwhile, hundreds of miles to the east, other Communist forces were locked in combat with nationalist units trying to push beyond the great wall into Manchuria where they were to take over the task of occupation from the Russian army. According to reports, the fighting raged with undiminished fury on both the north and south sides of the huge barrier.

Aid reports that Chungking was seeking to obtain Soviet permission to fly troops into Manchuria for the occupation, the London Daily Mail quoted Communist General Chou En Lai as saying he was "reliably informed that the central government planned to transport its armies to Manchuria by air."

AIR SUPERIORITY FOR UNITED STATES URGED BY ARNOLD

(Continued From Page One)

tial aggressor that an attack on the United States would be immediately followed by an immensely devastating air-atomic attack upon him.

"The atomic weapon thus makes offensive and defensive air power in a state of immediate readiness the primary requisite of national survival."

Airforce Doctrine

Arnold outlined this airforce doctrine for the future:

1. Maintain a striking air arm in being.
2. Keep the AAF and the aviation industry able to expand harmoniously as well as rapidly.
3. Maintain well-equipped bases overseas.
4. Support an alert and aggressive system of commercial air transportation.
5. Provide the United Nations organization with an adequate and effective air force for possible use by the security council in maintaining international peace and security.
6. Promote scientific research and development and maintain a close contact with industry.
7. Set up a permanent national intelligence organization.
8. Maintain a nucleus of women soldiers to provide for rapid expansion in emergency.
9. Continue the joint chiefs of staff organization.

Arnold said "there appears to be no limit to the frightfulness which is possible in the next air war," and made these predictions:

Space ships flying outside the earth's atmosphere and launching atomic bomb rockets.

Aircraft, piloted or pilotless, will move at speeds far beyond the velocity of sound, well over 700 miles per hour.

MEMORIAL AND DINNERS HELD

here of the China-Burma theater who was decorated for bravery there; Lt. Col. W. F. Jackson, veteran of the two world wars; Chief Petty Officer, Tom Edmunds, also a veteran of the two wars, and others.

Judge W. Walter Braham was elected chairman of 1947's Armistice Day dinner, and James A. Fletcher, the permanent secretary of the event, was continued in office for another year. Pep singing during the evening was led by Ivor V. Davis.

Sunday Memorial

Sunday afternoon's memorial service at the senior high school auditorium, honoring the heroes of the two world wars who made the supreme sacrifice was a solemn tribute to those men who shall never be forgotten.

Hon. W. Walter Braham, president judge of the Lawrence county courts, was the speaker and urged his audience never to forget those men who gave their all that democracy may continue in this world. He urged them to be steadfast to the ideals of democracy come what will in this changing world.

The invocation was given by Rev. Francis M. McCarter, pastor of St. Mary's church with the benediction by Dr. G. S. Bennett, pastor of the First Christian church.

Armistice Day Dinner

Sunday evening the members of Cpl. Harry L. McBride post No. 822 enjoyed their annual Armistice Day turkey dinner in their post home on West Grant street, which proved an enjoyable event, with all the turkey the members could eat, plus a great array of tasty side dishes.

The committee in charge of the arrangements did themselves proud, with Commander Swogger, Post Commander George Thompson, Joe Paik, George Horchler and Cal Lessie doing valiant duty as the committee in charge of the fine arrangements. Mike Fisher, a veteran of the two wars and a real of the new members from World War Two were guest of honor.

AWAIT TRUMAN'S A BOMB CONTRACT REPLY TO ATTLEE

(Continued from Page One)

British sources, was first suggested to President Truman in the letter proposing the secret conference.

The president, Attlee, and the Canadian member resume their conferences for the third day today. The primary purpose of the meetings is to obtain a formula for control of the atomic bomb discovery.

The basic requirement of the Attlee plan as disclosed by British sources, is that any nation having access to the international pool negotiate fully with the United Nations.

The blunt inference was that this applies especially to Russia and France.

Under United Nations Control

The proposal as outlined would place the atomic bomb secret and all secret weapons under control of the United Nations security council. The security council, consisting of the United States, Britain, Russia, France and China, under the United Nations organization is charged with enforcement of peace.

While no contract has come from American officials, President Truman has previously stated emphatically that the "know-how" secret of the atomic bomb would not be given to any other nation by this country.

The Attlee proposal, however, suggests that the secret weapons of all countries be placed in the pool with the United Nations security council having control over their use for military purposes.

An additional proviso also calls for Russia and some of the countries under her control to revise their political practices before they would be given the atomic bomb secret.

The plan calls for proof by deed. Informants said that "pious protestations would not be enough."

fee of twenty-four pesos in the filling of the writ because all Yamashita's funds were impounded when he surrendered.

At Yamashita's trial, meanwhile, a witness told a dramatic account of the mass slaying of 350 Filipinos in a provincial town.

As the trial entered its third week today, the session was marked by outbursts from two young girls who personally charged the former Jap Philippine commander with responsibility for atrocities committed by his troops.

Of the two witnesses, who seemed incensed at Yamashita, one called him a "blood-thirsty" and the other said he "knew you have done to our family."

The girl who made the reference to her family, told the court that she was bayoneted 12 times by the Japs and that she saw seven members of her family killed before her eyes.

The other girl was among a group of 20 who were slashed with bayonets in a cemetery where they had been gathered.

Another witness told how every house in the town of Santa Tomas was burned down and how more than 1,500 persons were slaughtered last February.

Although the foliage of the California oak shrub is deadly, money made from its flowers is harmless.

(Continued from Page One)

There will also be entertainment for the young folks taking part with the bands who will be entertained with a "lunch and dancing in the CIO headquarters on South Jefferson street."

Following the parade there will be a military ball for all veterans in the city, and then ladies in the Cathedral. This will get under way immediately following the parade and dancing will last until midnight.

Indications point to this being one of the greatest parades held here since the close of the Tri-county celebrations which used to be held by the American Legion.

The parade committee today asked that all veterans come out in uniform for the parade. If they do not have the uniform peculiar to their veterans' organization, they are asked to wear their civilian clothes. Any others who would like to parade and who have not been assigned to a division are asked to come out too. As a place will be found for them in the lineup. Parade Marshal, Tom Edmunds, states.

Hands Off Policy For U. S. In China Urges Dr. Creighton

Westminster Faculty Member and Former China Resident Gives Views On Situation

NEW WILMINGTON, Nov. 12.—"Hands off in China" is the policy advocated by Dr. J. W. Creighton, economics professor at Westminster College and far eastern authority. He believes the Chinese dilemma can and must be solved by the Chinese themselves.

Dr. Creighton had lived in China for 21 years and was witness to the internal strife and bloodshed between the political factions. The experienced educator also had personal contact with Chinese policies. "United States' recent intervention in northern China and the use of American guns and equipment to land Chinese nationalist troops into territory partially occupied by the Chinese liberal party was an unfortunate act," admonished Dr. Creighton.

Giving full support to one group when both were fighting with us against Japan was our first mistake, Creighton believes. He cited the United States' policy of sending troops into Russia after the first World War and believes we should have learned our lesson.

Believing that the situation in China has been misrepresented to the majority of American citizens, the far eastern expert explained that the Chiang Kai-Shek government, boosted to power by the Russian communists, which it later ousted, is almost reactionary.

"The Liberals, or so-called communists, would best be described as pink and not red. They are more to the left and the conservatives more to the right than major political parties in our country."

"Chiang Kai-Shek's government in particular has been misrepresented to the people of the United States. We only see the generalissimo in newsreel reading the Bible or shaking hands," he said.

The political setup in China is a one-party system with the main issue today involving the fight of the progressive party to be recognized by the reactionary government. But the government refuses to negotiate as long as liberals bear arms against the government and the liberals refuse to give up their arms and become powerless, he added.

"It will be fortunate indeed if the two parties can get together and form a two-party system. In this way they could work out the social and economic problems," concluded Dr. Creighton, who feels an attachment to the Chinese people and wants to see the violence stop.

RETURN BOARD STARTS

The work of the return board in tabulating the official vote for Lawrence county and one contest has already been settled. In the second precinct of Mahoning township, Tony Mico and Francis Gregg were opposing candidates for and supervisor. On the face of the unofficial returns Mico won.

Mr. Gregg questioned the right to open the ballot box at the second precinct and the votes were counted. The official return showed Gregg getting 157 to 154 whereas the unofficial vote credited Mico with 154 and Gregg only 138. The difference in the count shows Gregg to be the winner by four votes, the total of the three precincts being Gregg 238, Mico 234.

There is a possibility that the boxes of the other two precincts will be opened. The soldier vote may also have some effect upon the outcome.

STATE LEGION URGES TRAINING

HARRISBURG, Nov. 12.—(INS)—The state American Legion is an Armistice Day statement today endorsed universal military training and pointed out "the way to permanent peace is through an ever vigilant state of national preparedness."

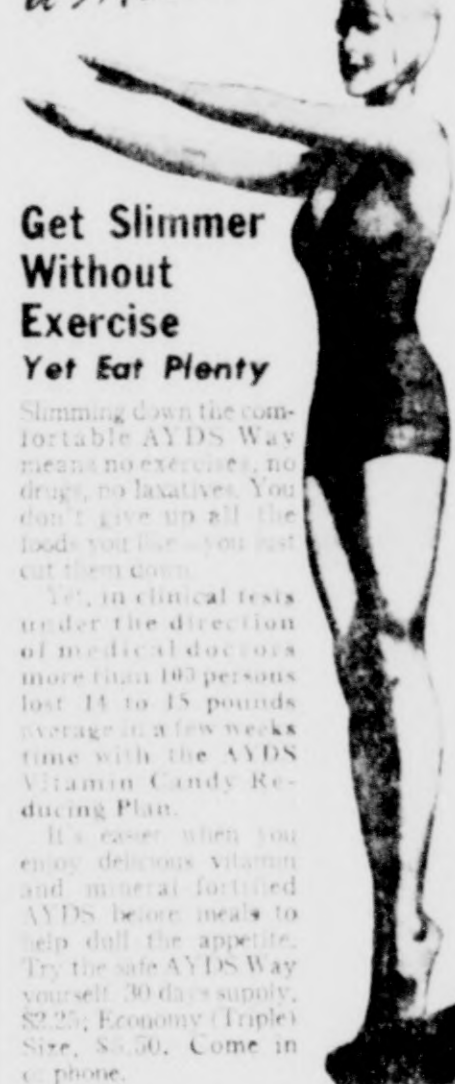

"Such preparedness should embrace universal military training for our young men, continuing scientific research, plans for swift mobilization, a navy second to none, a superior military intelligence, stock piles of strategic supplies and trained career diplomats, to represent us abroad," said Department Commander James P. Murray, of Forest City.

"This nation, once more at peace, observes Armistice Day in a spirit of humility," he said. "We pay tribute to the brave men of 1917 and 1918 who made this day possible. We can never repay our debt to them."

"Our debt to the dead and disabled of World War I has been increased a thousandfold by the obligations we owe those heroes who fought and bled to achieve victory in World War II," Murray added.

William Rittenhouse set up the first paper mill in America in 1880, near Philadelphia.

The electrical manufacturing industry moved today into the foreground of the nationwide wage controversy with the request of its labor leaders for a strike vote among 270,000 employees.

The CIO United Electrical, Radio and Machine Workers of America announced it had petitioned the National Labor Relations Board for a strike vote in the plants of General Electric Co., Westinghouse Electric Co., the electrical division of General Motors and 73 other concerns.

The threatened strike, over a \$2 daily wage increase demand, would cripple production of radios, refrigerators, washing machines and other electrical equipment in 72 states if it materializes, a union spokesman said.

Fairless Replies To Schwellenbach

Declares Steelworkers Have Adopted
"Take It Or Leave It" Attitude
In Negotiations

NEW YORK, Nov. 12.—(INS)—Benjamin F. Fairless, president of the United States Steel corporation, today charged that the United Steelworkers have adopted a "take it or leave it" attitude in their demand for a \$2 daily wage increase.

Fairless asserted that "collective bargaining should be a two-way street."

The steel executive made his statement in a telegram to Secretary of Labor Schwellenbach answering a letter in which the cabinet member requested "Big Steel" to resume negotiations with the Steelworkers union.

Fairless said the request would be considered by company executives tomorrow, and added:

"May I point out to you that in my opinion a further collective bargaining conference cannot be expected to accomplish anything in this situation until OPA authorities increase in ceiling prices for steel products."

Finest Highway System In World Planned For State

HARRISBURG, Nov. 12.—(INS)—Pennsylvanians were assured today by Gov. Edward Martin of having the "finest" highway system in the world under the five-year, \$345,000,000 post-war construction program to be carried out "with no additional taxes."

In the 11th report of the administration's progress during the past two years, the chief executive explained that the program included "construction and re-construction of roads and bridges, elimination of grade crossings, and widening and resurfacing of highways."

Among the projects will be the Penn-Lincoln parkway designed to provide a new entrance into downtown Pittsburgh from the William Penn and Lincoln highways.

He said the program was designed to aid motorists through the construction of roadside rests, limited access highways and free 10 intra-state toll bridges.

Governor Martin also pointed out that the Pennsylvania aeronautics commission had developed a postwar aviation program which already has won nationwide recognition.

"Already noted for its highway development, Pennsylvania's future in the skyways seems assured," he commented.

IT'S SIMPLY A MATTER OF TIME

The pendulum of production is swinging again for the Bell System, as Western Electric, our manufacturing division, reconverts for the all-out manufacture of the thousand-and-one things we need to give you the Bell System's true standards of service once more.

During 1946, for instance, it is planned to add 2,100,000 miles of Long Distance telephone circuits to the System. That's more than there

were in Great Britain and France combined, before the war, and it means that the pressure on our lines will ease up.

Today, of course, the thousands of calls of returning veterans are actually giving us more rush-time peaks than we had last year. So it's more important than ever to limit your call to five minutes when the operator must ask you to do so. A service man's call to his home may be waiting.

Reveals Reductions In Europe Service

PARIS, Nov. 12.—(INS)—Basil O'Connor, chairman of the central committee of the American Red Cross, revealed today that the Red Cross is reducing its activities substantially except in Germany where the services are being expanded.

O'Connor, speaking at a news conference, disclosed that the American Red Cross budget for the current fiscal year was \$15,000,000 as compared to \$33,000,000 the previous year.

Personnel in continental Europe was reduced by more than 3,000 last August, and the present staff was placed at 2,700.

Employees who have had long overseas service are returning to the

United States at the rate of 400 each month. Personnel still is on the increase in Germany, however, where a peak staff of between 1,500 and 1,800 is expected to be reached soon.

TURKISH BATHS SUBSTITUTE FOR ROOMS IN HOTELS

CHICAGO, Nov. 12.—(INS)—Another device was discovered today to beat Chicago's hotel room shortage.

Scores, unable to find a room in the over-crowded hotels, are flocking to the Turkish baths. The manager of one place said:

"We have from 20 to 30 overnight guests here every night. They come in with their luggage and say they've begged every hotel in town for a bed."

Another reported his place was getting a lot of traveling salesmen from all over the country, and added:

"Why, a lot of 'em don't even take a bath. But if they pay for it, what can we do?"

Bethlehem Steel Held Negligent

BETHLEHEM, Pa., Nov. 12.—(INS)—A corner's jury report found the Bethlehem Steel company guilty of "contributory negligence because of not providing adequate protective

safety facilities" at a gas blast furnace where eight men were asphyxiated October 18.

Six men entered the pit in an attempt to rescue two trapped workmen. And all eight died of carbon monoxide poisoning.

Michael Straka, one of the would-be rescuers, met death "by not adhering to the safety rules of the company," the jury found. It had

been testified that Straka went into the pit without first informing the combustion department. The company asserted that none of the men should have entered the pit.

Hope For Spurt In Bond Sales

Lawrence County Drive
Needs Impetus If Goal Is
To Be Achieved

Not behind the state average and yet not much better than it, the Lawrence County Victory Loan campaign enters a new week with 27.8 percent of its individual quota purchased. In money this represents \$73,290. Co-chairman Clarence M. England said today that while this was about the average for the whole state he had high hopes the percentage would be increased in the next few days.

House to house solicitors have been asked to renew their efforts to canvass the city. In some wards a good job of canvassing has been done, but in others it has lagged. To sell bonds or insurance or washing machines or brushes, people must be seen.

In the Armistice Day parade which takes place tonight, a huge Victory Loan float will be seen. This float is being paid for by a group of four merchants of the city and does not come from bond returns.

A MESSAGE FROM GUY

For the past few years I have travelled and fought my way as a Ranger Infantryman across new and strange lands.

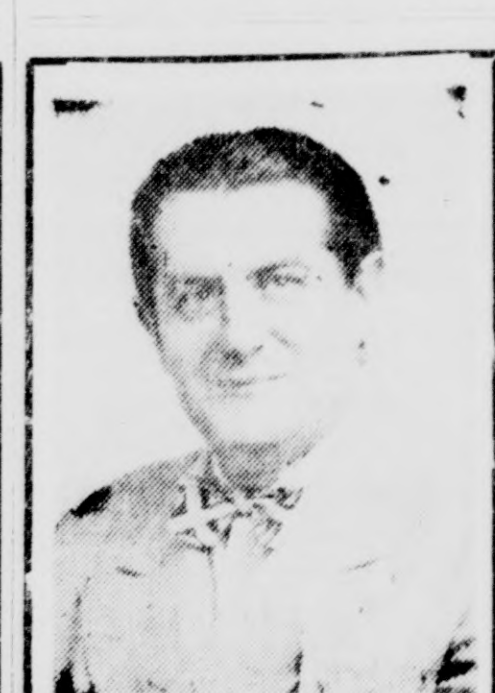

However, like your sons, brothers and husbands, my mind has been full of the thoughts of home and the people I have known and loved.

In the past, sometimes it seems like an eternity ago, I liked to believe that the sale of our wares was the result of years spent in developing and selling dairy products of the greatest nutritional value, produced under the most sanitary conditions.

Now that victory is ours, we of Shoaf Brothers Dairy shall try to even surpass our high standards of quality.

I have counted the many hours of returning and renewing our old friendships and settling down to business and pleasure once more. Your patronage and loyalty is greatly appreciated.

Jerome Kern Dies Following Stroke

Tin Pan Alley Mourns Passing Of One Of Nation's Best Song Writers

NEW YORK, Nov. 12.—(INS)—Tin pan alley beat in minor key today as the musical world mourned the death of Jerome Kern, one of its most illustrious composers.

The author of tunes for "Show Boat" and many other famous Broadway productions, died yesterday after having suffered a stroke last Monday while walking along Park avenue.

Kern is survived by his widow, Mrs. Eva Kern, and a daughter, Betty Jane. They announced through friends that his funeral will be private, with no details to be divulged.

The hide of a walrus is an inch thick. This may account for that look of utter indifference he wears.

Unification Of Armed Forces Is Peace Essential

So Declares Brig. Gen. James B. Newman Jr. Army Atomic Bomb Expert

CLEVELAND, Nov. 12.—(INS)—Unification of the nation's armed forces as essential to the maintenance of peace was urged today by Brig. Gen. James B. Newman Jr., army atomic bomb expert.

Speaking at an Armistice Day rally in Cleveland's public hall last night, General Newman deplored the condition of national preparedness at the outbreak of World War II, pointing out that neither the army nor the navy was manned or equipped to engage a major enemy immediately and successfully.

Worse than this, he said, "there was no comprehensive plan to employ our military forces to their fullest potential strength, and no plan for the exploitation of the capabilities of an air arm, and no definite air mission had been established."

From this chaos the general declared the establishment of the joint chiefs of staff in Washington finally brought order.

"We must now realize," he added, "that the three great forces, sea, ground and air, operating under the leadership of a supreme com-

New Castle Loses To Warren High 18-12

Final Battle On Saturday Packed With Real Thrills

New Castle Fights Back In Fourth Period To Tie Count, Then Lose

Williams Electrifies Fans With Two Touchdown Dashes, Twice

Highly publicized as one of the best football teams in eastern Ohio, the fast and rugged Warren High team came to the stadium Saturday night to defeat New Castle High in the final game of the 1945 season. A score of 18 to 12 in a thrilling battle as has been seen here in years. A crowd of over 9,000 sat in on the postponed game and enjoyed it.

The issue, in doubt until the very last few minutes after New Castle had fought back with everything it had to do to tie the score at 12-12 in the fourth period, sending the 9,000 some into hysterics, in that the game was not without the customary heart-breaks either, there were fumbles at critical spots, there were penalties that changed the entire complexion of the game. It was a game in which the crowd could be either way and it blew in the direction of Warren's speedy combination.

Everything On Calendar

There was every conceivable kind of football displayed Saturday night. Tight defensive play, lightning offense and fast ball handling. The game was not without the customary heart-breaks either, there were fumbles at critical spots, there were penalties that changed the entire complexion of the game. It was a game in which the crowd could be either way and it blew in the direction of Warren's speedy combination.

It was the fifth straight year for Warren to defeat New Castle since 1940. It was Warren's first undefeated season in the history of the school. It was the second heart-breaking upset for a great New Castle High Phil Bridenbaugh coached juggernaut. It saw the passing form the local gridiron of 14 young New Castle stars, many of whom ended their scholastic careers in glory, among them Billy Walls, Buzzy Panella, Sammy Flora, Bob Reed, Art Hill, Jimmy Padilla, George Toney, Lynn Betts and Jim Garberry.

Williams Breaks the Tie

After a thrilling first half in which neither New Castle nor Warren could gain any advantage, Warren never getting beyond their own 45-yard line any time, and New Castle getting to the Warren 22 once then losing the ball on downs, it was big Abe Williams, the Warren speedster, who broke the tie just three plays after the kickoff in the third period by dashing around left end from the Warren 39 to streak 61 yards and score the touchdown.

Warren tallied again Williams, breaking loose on a reverse from Walls, ran left end for 61 yards, being hauled down on the 1-yard line by Williams. It looked as if Panella had slid over the line but the referee ruled he didn't, and put the ball on the 1-yard mark, from which spot Billy Walls plunged over for his second touchdown. Panella, breaking loose on a reverse from Walls, ran left end for 61 yards, being hauled down on the 1-yard line by Williams. It looked as if Panella had slid over the line but the referee ruled he didn't, and put the ball on the 1-yard mark, from which spot Billy Walls plunged over for his second touchdown.

L. Corbin Cracks Over

New Castle kicked off to Warren this time, and Warren soon had the ball on the 50 as the result of a yard penalty for roughing. This was the first of the breaks for Warren. Warren then elected to punt after two plays, the ball rolling to the New Castle 6-yard line. New Castle was penalized again, putting the ball on the 2-yard line. Garberry dropped back of his own goal and got away a high kick to Warren on the New Castle 19-yard line.

Warren started driving hard again and with time running out, L. Corbin took a pass and lateraled to Pukla who ran brought down on the 5-yard line. Pukla then cracked through to the 2-yard line, then the one and L. Corbin was called back from his left end post and hauled his 190 pounds at the center of the line for the game winning touchdown. The extra point try by Blakely was no good. Warren 18, New Castle 12.

Warren kicked to New Castle in the driving moments of the game. New Castle started throwing passes but failed with just one. Smith to Toney on the Warren 43, then Smith picked up eight yards and the game ended with New Castle driving hard for another touchdown.

Yardage Fairly Even

Although defeated, New Castle was not outplayed nor outgained by the Warren team. New Castle had five first downs to four. Both teams made three first downs in the first half and New Castle two and Warren one the last half. Warren gained a total of 198 yards on the ground to 157 for New Castle. New Castle gained 28 yards passing and Warren 10.

An unfortunate injury to the sensational Sammy Flora left half late in the second period seemed to throw the New Castle offensive off kilter, but Smith, a sub halfback did a good job as did Walls when used at a halfback spot with Garberry in at fullback. Flora never returned to the game.

Band Scores Hit Despite Defeat

Bandsmen, Twirlers Climax Series Of Entertainments With "Weather Routine"

With three strikes against them, a wet field, cold weather, and absent players, the New Castle High school band under the direction of Joseph Replogle came across with another fine performance Saturday evening at Tazewell stadium, climaxing a series of between-halves entertainments that should make the city "proud" of its high school musicians and twirlers.

Defied the Weather

The program in defiance of the rain was a "weather routine," with the band marching on the field playing "I'm Always Chasing Rainbows." "Blue Skies" was the next number, for which the twirlers wore glittering sky blue caps to offer their dance and twirling skill. Donna Smith received enthusiastic applause for her double baton twirling act.

A crash of symbols sent the band scurrying into an umbrella formation outlined with flashlights as the stadium lights went out. Lighted batons twirled in patterns as the band played "Stormy Weather." "Over the Rainbow" the youngsters formed seven spots, 60 feet long, highlighting each spot with strips of rainbow colors. The twirlers formed a 60-foot arc for a flag twirlers act with this number. Highly optimistic, the band marched off the wet and soggy field playing "I Ain't Gonna Rain No More."

Warren Entertains

In the opinion of the spectators, the Warren band was one of the best visiting bands which have played at Tazewell stadium this season. The sixtieth players were accompanied by twenty twirlers who blew bubbles during the formation of a large pipe for this number. Marching onto the field playing "Down the Field," the Warren bandmen formed a large keystone to play the New Castle Alma Mater. The soap bubble number was followed with "Down by the Ohio," for which the band formed the letters O-H-I-O. The director was Charles Corbett.

The youngsters in the New Castle band and the twirlers have merited a lot of praise this year, so the comments of some Warren spectators that the New Castle performance was as good as a floor show. Defeat or victory the bandmen and twirlers have been on hand with a well-rehearsed routine worked out under the supervision of Mr. and Mrs. Joseph Replogle. The twirlers this year have been Velma Bernard, Donna Corbett, Eleanor Thomas, Harriet Burke, Christina D. Thomas, Donna Smith, and Dorothy Barker.

For the Wednesday evening rehearsals all during the season, the band has been faithfully assisted by Harry Bollinger, Rudy Herman, and Ray Hall. These men volunteered their services in the absence of stadium attendants on each Wednesday evening.

Church Managers To Meet Tuesday

A final meeting will be held at the Y. Tuesday evening for all managers of the New Castle church basketball league. The meeting will start at 8 o'clock. It was announced by Jimmy Dart, who will direct the league.

This is the last meeting prior to the start of the league on November 26. It was announced. A schedule will be discussed at the Tuesday meeting.

Robinson Fights \$5,000 Court Order

Negro Welterweight Ordered To Pay New York Promoter By Court Decision

CHICAGO, Nov. 12.—(INS)—Ray (Sugar) Robinson, Negro welterweight title contender, said Saturday he would fight a municipal court decision ordering him to pay \$5,000 to Fred Irvin, New York fight promoter and publicist.

Judge William Daly ordered the payment after a jury decision in favor of Irvin's claim that he entered into a verbal agreement with the boxer to arrange fights and publicize him. Irvin had sought \$6,200 containing he had been paid nothing for work in Robinson's victories over an opponent in Buffalo, N. Y., and Jake La Motta in Chicago last September.

Robinson denied any business dealings with Irvin, and said he would spend \$100,000 to appeal and beat the decision as a matter of principle.

PITTSBURGH, Nov. 12.—(INS)—Pittsburgh Bill Dudley, who starred for the Steelers in 1944 before going to the service, was a sideline hero in the Steel City today after sparking the Pittsburgh team to a 23 to 0 victory over the Chicago Cardinals to move the Steelers out of the league cellar.

Before sparking the Pittsburgh team to a winning game, Dudley contributed greatly to the victory by virtue of two touchdowns.

First In Two Years

It was the first Steelers victory over Pittsburgh since 1923. After the Steelers had a complete tie in 1941, they lost to the Cardinals.

The Steelers carried off most of the honors. Ben Arakelian, placekicking star, scored his fourth point, the Steelers' first, in the fourth quarter. The Steelers had a complete tie in 1941, they lost to the Cardinals.

New Castle Rifle Club At Ellwood

The New Castle rifle club will go to Ellwood City tonight for a league shoot. It was announced by Secretary Charles Phillips. All those making the trip are to meet at 6 o'clock at the corner of Grant and Jefferson streets.

The New Castle team is tied with the Beaver Valley club for first place in the league with three wins and no defeats and must win tonight at Ellwood City to stay in first place.

No Invitations To Sugar Bowl

NEW YORK, Nov. 12.—(INS)—No invitations have been extended as yet for the Sugar Bowl post-season football classic at New Orleans. It was announced Saturday by Sam Cornsweat, a member of the Sugar Bowl committee.

Cornsweat, here to see the Army-Navy game, said the committee had not even put out a "reel" to any candidate for the New Year's Day blue ribbon event.

Alabama, Holy Cross, and St. Mary's have been mentioned prominently as probable candidates for the Sugar Bowl.

HERE AND THERE IN SPORTS' LAND

MORE accidental gun wounds, fatal and otherwise, are inflicted by rifles than by shotguns, adults, not juveniles, are responsible for a majority of the mishaps and about one-fifth of all firearms injuries are self-inflicted. The information is gleaned from the final report of the Pennsylvania game commission on accidental shootings in the state during 1944. There were 23 fatal gun accidents in the state last year. Ten of the victims died of self-inflicted wounds and 13 were killed by other persons. Thirty-six also suffered self-inflicted wounds and 41 were injured by others. Seven of the death victims were under 21 years of age, 11 over 21, and the ages of five are not known. Only one fatal wound was inflicted by a minor, and 156 per cent of the non-fatal wounds.

Edgar E. Rip, Miller, the navy line coach who is reported in line for the job as head coach of the new Baltimore team in the All-America League, has been playing and coaching football for a quarter of a century. Rip, a near-smoking pipe-smoking master of line play, teams up his knowledge first-hand for his tackle on the Notre Dame team of 1923-24.

He was one of the seven major players in 1924. After graduation from Notre Dame, Rip became line coach at Navy. He was elevated to head coach in 1931 and maintained that spot until 1933. He was called to active duty with the Naval Reserve in 1943 and returned to inactive status this year. Each of the eight teams in the American Hockey League is playing an all-time high number of games—62. As a result, new attendance marks are expected to be made.

Although the National Open golf tourney, being revived after five years of inactivity, is scheduled to be played until June 12-14-15 of 1946, tickets for the event already have gone on sale. The tourney is to be played at Canterbury Country club, Cleveland. Second prizes for the event are \$750 each and there admit spectators to the practice rounds, the three days of the tourney and the playoff if necessary. (Continued)

New Yorkers See Possible Ticket Of Truman-Farley

Democrats, Encouraged By O'Dwyer Election, Seek Strong Candidate For 1948

By JAMES L. KILGALLIN
New York, Nov. 12.—It may seem a bit premature but New York politicians are already talking 1948—and even 1949.

And, in these discussions, the name of former Postmaster General James A. Farley (now a business executive) is moving back into the political picture.

Some Democratic politicians, taking a long range view as they peer into the crystal ball, even go so far as to say the Democratic National ticket in 1948 "could be" Truman and Farley.

Hurts Dewey Prestige
Democrats claim that Governor Thomas E. Dewey, titular head of the Republican party, lost prestige in Tuesday's election when William O'Dwyer was chosen mayor of New York City by the record plurality of 685,175.

Dewey supported Judge Jonah J. Goldstein, Republican-District-1 liberal nominee, one of O'Dwyer's 120 opponents.

Farley supported O'Dwyer.
The politicians are today asking "who can beat Dewey?" If Dewey runs for re-election as governor in 1946 as a prelude to another try at the presidency in 1948.

"Farley Is the Man"

Some well-informed Democrats answer: "Farley is the man who can do it." Even Farley's closest friends do not know whether Farley would go out for the governorship. He is

happily situated now and might resist efforts to get him back into the political picture.

But if he ran for the office, political sharps agree he would be a powerful candidate. They add that he is a Democrat who can beat Gov. Dewey in 1946 would be almost sure-fire vice presidential timber in 1948. That's where they get around to the "Truman and Farley" ticket.

Currently, the two most prominently mentioned as possible Democratic gubernatorial candidates next year are Farley and U. S. Senator James M. Mead.

A lot of Democrats do not think Mead could beat Dewey. If the late President Roosevelt were alive it might be different because FDR was a strong Mead booster. They say if Mead runs for governor he would have to defend his record on various matters that have come up in the House and Senate.

Farley, however, is one of the best known and most popular Democrats in New York state politics. It is understood he was asked to run for mayor of New York but turned it down.

AUTUMN IS TIME TO CONTROL CATTLE LICE

This is the season to take effective control measures against lice on dairy and beef cattle. It is now, when cattle move indoors and crowd together that cattle lice build up in numbers and by cleaning them now, no trouble will be met during the winter months.

Several control methods to rid the livestock of lice may be used at this time. The safest and most economical control is a mixture of rotenone and wettable sulphur. Rotenone dust containing 4 to 5 per cent rotenone (crude derris or cube root) should be mixed, one part to nine parts of wettable sulphur. One pound of this mixture is sufficient to treat a mature animal. The dust should be applied with a salt-shaker type container and thoroughly rubbed into the hair with the fingers. Use of a dust gun is not effective.

Commercial rotenone dust preparations, designed for use against cattle lice, should be applied according to manufacturer's directions. Some dairymen have had good results using the ordinary half per cent or three-quarters per cent rotenone, such as is used in vegetable gardens. Pyrethrum, if available, can be substituted in the rotenone mixture. A second application should follow in 10 to 14 days to kill any late-hatched lice.

Reports from other states indicate that effective control of cattle lice has been obtained by using a DDT dust of 3 to 5 per cent strength. This is rubbed into the hair, using about a quarter-pound per animal. Care must be exercised not to inhale the dust, and persons applying the dust should wash the hands thoroughly when the job is completed.
